

Insure yourself against the strain of city life

You should insure yourself against the daily jolts and jars that tend to break down your health.

Leather heel wearers get 8,000 jars a day. O'Sullivan's Heels of New Live Rubber save your spine from the jolts and jars you get from city pavements.

When you buy your new shoes, buy them O'Sullivanized.

Insist on O'Sullivanized shoes; the new live rubber heels give the greatest wear with the greatest resiliency.

How to Rid the Skin of Objectional Hairs

(Aids to Beauty)

A simplified method is here given for the quick removal of hairy or fuzzy growths and rarely is more than one treatment required. Mix a stiff paste with some powdered delatone and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and every hair has vanished. This simple treatment cannot cause injury, but care should be exercised to get real delatone.—Advertisement.

SWEDES ORGANIZE

Topeka Scandinavians Form Republican State League.

The Swedish-American Republican State league of Topeka was organized last night at a meeting of fifty prominent Swedish people of the city in the National hotel. The Topeka league will take immediate steps to branch out over the state and it is the hope of the local leaders that the 25,000 Swedish voters of the state may all be enrolled in the league by election time.

The league last night pledged fidelity to the principles of the Republican party, declared for a tariff that will protect the working man, sacredness of the ballot, purity of elections and reform in the civil service. The league will make an effort to secure Frank Nelson, former state superintendent of schools in Kansas and now president of Minnesota university, for an address here within the next few weeks. The next meeting of the league will be held Friday, October 13, at 8 o'clock, when men are eligible for membership in the league.

The officers of the league elected last night are: E. H. Helm, president; C. E. Malmberg, vice president; J. W. Johnson, secretary; A. P. Ahlstrom, treasurer; C. H. Carlson, sergeant-at-arms.

TWO NEW TEXTS

Kansas Authors Fare Well at Hands of School Book Commission.

Kansas authors have fared well at the hands of the state school book commission. A recent list of the state published texts shows a number of titles by well-known Minnesotan university writers of the state. At present W. R. Smith, state printer, is running two new texts by Kansas authors off the presses of the state printing plant, Tenth avenue and Jackson streets. They are: The Sixth Grade Classics and the Primary Physiology, edited by A. M. Thoroman, secretary of the state school book commission, and H. W. Davis, of the department of English of the state agricultural college.

The physiology is written by James W. Mayberry, of the Kansas state normal at Emporia, and L. W. Mayberry, superintendent of the Wichita schools. Among other titles by Kansas authors adopted for use in the public schools of the state are: Searson-Martin series of five readers by J. W. Searson, of the department of English of the state agricultural college.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There is no operation, no truss, no trouble. I have nothing to sell, but will give full information about it, if you will write to me, Eugene M. Fullen, Carpenter, 128 C. Marcellus Avenue, Manhattan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—Advertisement.

25 YEARS AGO IN TOPEKA

From the columns of THE TOPEKA STATE JOURNAL.

October 5, 1891.

Dr. Aikins moved from 518 Monroe street to 424 Monroe street.

The Shawnee County Homeopathic Medical society will meet tomorrow at the office of Dr. Menninger.

The Athenaeum literary society of the high school held a meeting Monday and elected officers for the ensuing year as follows: President, Lawrence Chamberlain; vice president, Albert Horton; secretary, Willis Rogers; treasurer, Francis Anderson.

The first council meeting of the month began under the usual circumstances last night. Whaley and the mayor had a little tilt.

Jim Merie, one of the crooks arrested during the state fair, pleaded guilty Monday to having stolen a gold watch worth \$12 or \$15 from Jake Stitt, in North Topeka.

The county commissioners are considering a scheme to build a workhouse back of the county jail and put in a stone pile in which to work prisoners confined for failure to pay fine and costs. It is thought that this will put a stop to the committing of petty offenses for the sake of obtaining jail lodging thru the cold weather.

The Young Men's Republican club meets in the Trade Assembly hall over Ettlinger's shoe store, tomorrow evening. Money question will be discussed. It has been divided into topics and each speaker allowed only five minutes. Following are the topics and speakers:

"The Power of Government to Issue Money," S. E. Farnham.
"Amount of Money in Circulation, How Issued, How Secured," C. E. Gault.
"Requirements of the Law Regarding National Banks," T. J. Flannely.
"Circulation Required to Do the Business of the County on a Cash Basis," E. M. Bonebrake.

"Has the Government the Power to Compel Contracts Now in Force, Providing to be Paid in Gold, to be Paid with this Issue," Robert Stone.
"The Non-Perishable Product Indicated in the Sub-Treasury Plan Upon Which the Government Should Loan at 2 Per Cent; Result of Such Action," A. A. Evans.

lege; the Little Kansas Primer, by Mrs. Anna W. Arnett, of Lawrence; History of Kansas and a text book of Civics by Miss Anna E. Arnold, of Cottonwood Falls; Book I and II of the arithmetic by Miss Lizzie E. Wooster, of Salina; a text book of Agriculture by L. E. Call and H. L. Kent, of the faculty of the state agricultural college; United States History, by Eli G. Foster, of Topeka; four volumes of classics by Thoroman and Davis.

CAR SHORTAGE ON

Santa Fe Asks Shippers to Facilitate Movement of Equipment.

Asserting the car shortage is the worst it has been this year, Santa Fe officials today renewed their requests for shippers, at destinations, to be more prompt, when possible, in unloading and returning freight cars. Under present demurrage rules shippers are allowed to hold cars at destinations two days without paying demurrage. Santa Fe officials assert, the quicker the cars are returned to the company the less trouble shippers will have in obtaining cars.

The shortage includes practically all classes of freight cars.

TO HAVE TOWN SINGS

Professor Beach Prepares List—Use Movie Shows for Music Houses.

Emporia, Kan., Oct. 5.—A list of the thirty best songs for community singing has been compiled by Prof. F. A. Beach, head of the music department of the Kansas Normal school at Emporia. Professor Beach has selected the songs from what he calls the "Folk Songs of America." This includes many songs originating in other countries but which have become American by adoption.

The songs are: Old Folks at Home; Ann's Lullaby; Three Blind Mice (round); Dixie; Come Thou Almighty King; Auld Lang Syne; Old Kentucky Home; Battle Hymn of the Republic; Long Long Ago; Love's Old Sweet Song; Row, Row Your Boat (round); Holy Night; Drink to Me Only with Chilled Eyes; Mass in D; Cold, Cold Ground; Flow Gently Sweet Afton; My Bonnie; Yankee Doodle; Old Black Joe; Blue Bells of Scotland; Sweet and Low; We're Tending Tonight; Oh! How Lovely is the Evening; American Hymn—Keller Comin' Thru the Rye; Lightly Row; Far Away; Killdeer; Good Night (round); America; Star Spangled Banner, and Kansas Land.

Professor Beach is working now on a plan for utilizing movie pictures in houses in Kansas for community singing. Songs will be thrown on the screen between reels and high school students lead in the singing.

PUBLISHES KANSAN'S WORK.

Federal Bureau of Education Adopts Dr. Monroe's History of Arithmetic.

Emporia, Kan., Oct. 5.—The publication, by the bureau of education at Washington, of a dissertation on the History of Arithmetic in America by Dr. W. S. Monroe of the Kansas Normal school at Emporia will make Kansas the contributor of one of the most significant educational works in recent years. "This work," said Dr. Judd of the University of Chicago, "is one of the highest importance among American educational documents."

The publication, which is 80,000 words in length will be sent by the bureau of education to approximately all of the city superintendents and to the universities, colleges, normal schools and public libraries in the United States. It will be published some time after the first of January.

Dr. Monroe is director of the bureau of educational measurements and standards at the Emporia Normal school and is following up his work on arithmetic with investigations in arithmetic scales and tests.

SCOTT CITY SCHOOLS FULL.

Increase of 25 Per Cent in Attendance Makes New Building Necessary.

Scott City, Kan., Oct. 5.—The attendance in the schools of Scott City has increased more than 25 per cent over what it was last year. During the summer, a five-room addition was built to the high school, and one teacher was added to the faculty. In the grades, most of the rooms are crowded and the board is trying to provide room for at least one additional teacher. Another grade building will be necessary before the opening of the next school year.

The high school is trying to find a way to erect and equip a modern gymnasium. The big increase in attendance has added new impetus to the athletic enthusiasm that always has prevailed here. The people of the city are enthusiastic for a gymnasium and athletic building, and it is believed that they will find a way to get one.

FULTON MAN DISAPPEARS.

Former Postmaster Last Heard From in Kansas City Last Week.

Fort Scott, Kan., Oct. 5.—Will Shaffer, until last week postmaster at Fulton, Kan., twelve miles north of here, and one of the most prominent young farmers and stockmen of Bourbon county, has disappeared. He went to Kansas City a week ago and he phoned from Kansas City to Miss Devereaux, who was his assistant in the Fulton postoffice and who is running that office until Mr. Shaffer's successor is appointed, that he was going out into the country that day and would be home Tuesday. Since then nothing has been heard from him. His father, ex-Senator Ed T. Shaffer, has gone to Kansas City in hopes of being able to locate him.

TORRE STOCKING ON STREET CAR

Woman Gets Pair of Silk Hose From Wichita Railway Company.

Wichita, Kan., Oct. 5.—A Wichita woman sent a fan silk hose to the office of the street car company one day last week and demanded a new pair of hose on the ground that she had torn this one in getting off a street car. She got new hose all right, because Manager Charley Lewis says he doesn't know much about such things, but a young lady who was in the office at the time declared that she thought the hose was torn by pulling on it too hard, when the owner put it on.

DEMAND EXCEEDS SUPPLY.

Agricultural College Cannot Furnish Engineering Graduates Fast Enough.

Manhattan, Kan., Oct. 5.—The engineering division of the Kansas State Agricultural college has a 40 per cent increase in student enrollment. This includes seventy-five additional electrical students and fifty working in mechanics. Manufacturing interests already are writing in and asking for men next spring. Last summer 200 more men were asked for to fill positions in electrical, mechanical, and highway engineering than could be furnished.

TO HOLD STATE CONVENTION.

Universalists and Y. P. C. U. Meet at Hutchinson Next Week.

Hutchinson, Kan., Oct. 5.—A joint session of the Universalist state convention of Kansas and its auxiliaries will be held here October 13, 14 and 15. This is the forty-sixth annual session of the state convention and the twenty-sixth session of the Y. P. C. U. Among the speakers on the program are the Rev. E. Burdette Backus, Lawrence; Mrs. F. A. Parsons, Chanute; Mrs. S. Hirst, Hutchinson; the Rev. James Houghton, Junction City; the Rev. G. A. King, Wichita; Dr. Lewis B. Fisher, Chicago university, and the Rev. John R. Carpenter.

MURDER HEARINGS FRIDAY

Couple Accused of Killing Man's First Wife on Stand Tomorrow.

Garden City, Kan., Oct. 5.—Preliminary hearings will be held before a justice of the peace here Friday in the cases of Fred Gilmer and his newly wedded wife, arrested here on

an information filed by a son of Gilmer's first wife, in connection with the recent death of the first Mrs. Gilmer. It was charged in the warrant that the woman was poisoned. Mrs. Gilmer died in August and Gilmer married within a week of her death, it is declared. Gilmer is a well known farmer. His second wife is several years his junior.

SETTLE K. U. SORORITY ROW.

Fair Co-Ed. Sought by Two Orders, Breaks Pledge and Is Penalized.

Lawrence, Kan., Oct. 5.—Miss Helen Cook, University of Kansas freshman, from Coffeyville, rushed by two popular sororities, pledged by both of them, was today a member of neither, according to a ruling made by Lena G. Baldwin, president of the National Pan-Hellenic.

Miss Baldwin, whose home is in New York, strengthened out the tangle that threatened to take all the gaiety out of K. U. sorority life and inject a goodly share of gloom into it, by declaring that Miss Cook, the bone of contention, is neither a pledge of Chi Omega nor of Kappa Kappa Gamma, nor can she become a pledge for "one calendar year."

Can't Join for a Year.

"Helen Cook, pledged to Chi Omega with the reorganized pledge ribbon, has broken her pledge with Chi Omega and therefore cannot pledge to any other sorority for one calendar year. That, I think, should be clear," Miss Baldwin wrote Miss Elfrida Fischer, president of the local Pan-Hellenic of Sororities at K. U.

It is common knowledge on the hill and in the Latin quarters at Lawrence that Miss Cook first pledged Chi Omega, broke her pledge to pledge Kappa Kappa Gamma. Chi Omega declared this was contrary to Pan-Hellenic rules and took the question up with the national association with the above results.

SERVICE IS FREE

Beneficiaries Under New Pension Law Invited to Senator Curtis's Office.

Blanks and form letters for submitting applications to the pensions bureau under the new soldiers' widows' pension bill may be obtained at the office of Curtis, Mote, Rooney & Crossley. It was announced today by that firm. The forms will be furnished free of charge and assistance will be given free, in making out the forms. The new pensions act grants widows of soldiers more than 70 years old an increase of \$8 in pension, raises the date of marriage to soldiers to 1905 and permits the placing of the names of widows who remarried and were widowed the second time back on the pension lists.

\$200,000 for River Barges.

Pittsburg, Pa., Oct. 5.—The American Steel & Wire company today completed a deal for \$200,000 by which its entire fleet of steel river barges were sold to the Aluminum Company of America for its St. Louis plant. The barges, each 200 feet long, were too large for the wire company's needs and will be replaced by seventy-five smaller boats.

Make Housecleaning Easy!

If you're up against the need of fall housecleaning—make it the easiest and the most thorough you have ever had, by using the assistance of

THE HOOVER SUCTION SWEEPER

It will clean your carpets and rugs on the floor and do it thoroughly—it will clean your portieres, your pictures, your upholstered furniture and do it all dustlessly. It will keep your home in a condition of pleasing cleanliness all the year round.

The Hoover is the only electric carpet sweeper and vacuum cleaner combined—the only machine that takes care of every kind of dirt—surface, adhering or imbedded. With its electric driven brush of soft hair, it sweeps up all lint, thread and hair—it also shakes to the surface the heavy, imbedded dirt, so that the powerful suction can carry all of it away.

The machine itself does all the work. You simply guide it on its easy rolling wheels. Runs far easier than an ordinary carpet sweeper. No pressure or exertion is necessary.

See this wonderful cleaning machine at work—compare its work with that of other cleaners—see how much easier it is to use and how much more thorough. We'll gladly bring the machine for a trial to your home, or, if you prefer, we will demonstrate it here.

Nujol

For Constipation

AS CLEAR AS CRYSTAL

Hold a bottle of Nujol up to the light. Its crystal transparency is without a flaw. Every trace of impurity, every vestige of color or "bloom" has been removed by varied and many times repeated processes of refining.

Nujol is water-white, tasteless and odorless. It neither looks, tastes, nor smells like "medicine." As a matter of fact it isn't medicine at all, in the ordinary sense. It is not a laxative or a purgative,

is not absorbed by the system, hence doesn't form a habit. It acts in effect as an internal lubricant, softening the contents of the intestines and so promoting normal movements.

All druggists carry Nujol which is manufactured only by the Standard Oil Company (New Jersey). Avoid substitutes. Write today for booklet "The Rational Treatment of Constipation."

STANDARD OIL COMPANY

Bayonne (New Jersey) New Jersey
